

"The Dream Team" Roadshow 2009

July has been an exciting month for us as the Syndel Asia organized a roadshow together with Bayer Thai co., that spanned from north to south Malaysia. During the roadshow, seminars were held to introduce current shrimp farm management and disease control practices using technology developed and promoted by BAYER THAI LTD. The target audience for the seminar, which was held in 3 separate locations between the 20th-24th July, were shrimp farmers, traders and government officers. The three main locations of the roadshow were at Sg. Petani, Kedah, Lumut, Perak and JB, Johor. The roadshow is an effort to introduce new information related to shrimp farming and would be of immense interest to both shrimp grow-out farms as well as shrimp hatcheries. The seminars were FOC and open to all shrimp farmers as well as anyone who is interested to attend. There were food and drinks, door gifts and a lucky draw. The topics and speakers were as below:

1. **Shrimp pond management - How to maintain good water & soil?** by Dr. Pornlerd Chanratchakool (NOVOZYMES)
2. **Shrimp diseases - How can we prevent this?** by Dr. Jirasak Tangtrongpiros (CHULALONGKORN UNIVERSITY)
3. **Bayer Aqua - The Dream Team for shrimp pond and disease management** by Tavatchai Chidchomsrichantra (BAYER THAI Co.)

We are happy to say that the response to the show was positive and this encourages us to bring the roadshow to other cities and states that may benefit from it. If you have any suggestions or requests regarding the roadshow and our seminars, please email us at info@syndelasia.com
