

Syndel Asia is expanding its product base to include a more complete range of products for biosecurity and health of aquatic organisms.

Job Description

Syndel Asia is seeking a qualified individual to develop and service the aquaculture industry in Malaysia with our new products. The Technical Sales Representative will be based in Malaysia. The Technical Sales Representative will possess own transport and will be willing to travel and work independently. The Technical Sales Representative will coordinate with the Technical Sales & Services Services Manager and Sales Head on regular customer visits, marketing strategies, product demonstrations and trials conducted in shrimp farms. The candidate will be required to reach monthly sales targets which will determine sales commission.

Qualifications

The Technical Sales Representative should have a BSc. in Aquaculture, Aquatic Biology or Fisheries Science and is between 25-35 years of age. We prefer a male that has 1 or more years working in a shrimp farm or in the industry and is familiar with shrimp farming techniques in Malaysia. **Candidate without degree but experience in aquaculture will be considered.**

The Technical Sales Representatives **MUST BE** Proficient in MANDARIN /Chinese dialect(s) and good in Bahasa Malaysia and English. He should be computer literate and must be able to use Microsoft Excel, Word and Power Point well.

Remuneration

Starting basic salary is from RM2,000 plus sales commission, depending on experience and qualification. All travel, food and lodging expenses during sales visits will be covered by the company.

Interested candidates should email their application together with Resume to: Sugania Vijayan (General Manager) at sugania@syndelasia.com

NOTE: THIS JOB VACANCY IS APPLICABLE TO MALAYSIAN CITIZENS ONLY.
